Re: Letter of Recommendation

To Whom it May Concern:

Our agency has been associated with the Ohio Employee Health Partnership (OEHP) for several years and have found the entire organization to be one that is dedicated to providing exceptional services in the area of managed care. Through ongoing communication with both the injured worker and our agency, and continuous oversight of "lost time" and medical claims, OEHP provides "top-notch" customer support.

During the past years, we have been approached by many managed care organizations. However, due to the excellent support OEHP provides, we have always chosen to stay with them.

If you have any questions regarding the above, please let me know.

Sincerely,

David M. Bresnen
Human Resources Manager
